Description: This course was developed by the Texas Engineering Extension Service (TEEX), National Emergency Response and Rescue Training Center, and serves as a forum for the nation's mayors to discuss disaster response challenges unique to mayors, county executive officers, and county commissioners. This facilitated discussion is designed for 8-12 mayors—preferably a group of mayors sharing regional response interests. Providing a unique opportunity to share proven strategies, the seminar features a multimedia terrorism scenario and other relevant all-hazards vignettes designed to fuel discussion and highlight key issues of the Emergency Management framework.

Topics include: Domestic preparedness resources and how to leverage them for your community; Homeland Security Strategic Planning as it relates to risk and needs assessment and the Emergency Operations Plan (EOP) for your jurisdiction; Executive-level incident response and recovery considerations, including medical/public health, situational appraisal, incident management (ICS), mutual aid agreements, media relations, recovery and restoration processes, Federal assistance, and business/economic recovery
